To the City Council and Management
City of Prior Lake, Minnesota

We have prepared this management report in conjunction with our audit of the City of Prior Lake, Minnesota's (the City) financial statements for the year ended December 31, 2015. The purpose of this report is to provide comments resulting from our audit process and to communicate information relevant to city finances in Minnesota. We have organized this report into the following sections:

- Audit Summary
- Governmental Funds Overview
- Enterprise Funds Overview
- Government-Wide Financial Statements
- Legislative Updates
- Accounting and Auditing Updates

We would be pleased to further discuss any of the information contained in this report or any other concerns that you would like us to address. We would also like to express our thanks for the courtesy and assistance extended to us during the course of our audit.

The purpose of this report is solely to provide those charged with governance of the City, management, and those who have responsibility for oversight of the financial reporting process comments resulting from our audit process and information relevant to city finances in Minnesota. Accordingly, this report is not suitable for any other purpose.

Malloy, Montague, Karnowski, Radosevich & Co., P.A.

Minneapolis, Minnesota
May 18, 2016

AUDIT SUMMARY

The following is a summary of our audit work, key conclusions, and other information that we consider important or that is required to be communicated to the City Council, administration, or those charged with governance of the City.

OUR RESPONSIBILITY UNDER AUDITING STANDARDS GENERALLY ACCEPTED IN THE UNITED STATES OF AMERICA AND *GOVERNMENT AUDITING STANDARDS*

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of and for the year ended December 31, 2015, and the related notes to the financial statements. Professional standards require that we provide you with information about our responsibilities under auditing standards generally accepted in the United States of America and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information to you verbally and in our audit engagement letter. Professional standards also require that we communicate the following information related to our audit.

PLANNED SCOPE AND TIMING OF THE AUDIT

We performed the audit according to the planned scope and timing previously discussed and coordinated in order to obtain sufficient audit evidence and complete an effective audit.

AUDIT OPINION AND FINDINGS

Based on our audit of the City's financial statements for the year ended December 31, 2015:

- We have issued an unmodified opinion on the City's basic financial statements. Our report included a paragraph emphasizing that the City implemented Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68*, during the year ended December 31, 2015. Our opinion was not modified with respect to this matter.
- We reported no deficiencies in the City's internal control over financial reporting that we considered to be material weaknesses.
- The results of our testing disclosed no instances of noncompliance required to be reported under *Government Auditing Standards*.
- We reported one finding based on our testing of the City's compliance with Minnesota laws and regulations:
 - 1) The City had certificates of deposit in excess of federal depository insurance at two depositories as of December 31, 2015, and the excess deposits were not adequately covered by pledged collateral with a market value of 110 percent of the excess, as required by state statutes. As a result, \$484,995 of the City's deposits were exposed to custodial credit risk at year-end. This oversight was corrected in early 2016.

SIGNIFICANT ACCOUNTING POLICIES

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the City are described in Note 1 of the notes to basic financial statements.

The City implemented GASB Statement Nos. 68 and 71 during the year ended December 31, 2015. These statements provide new guidance on accounting and financial reporting for pensions accounted for in the financial statements of plan employers. Implementation of these standards resulted in an adjustment to the beginning equity reported in the City's government-wide and enterprise fund financial statements, as described in Note 1 of the notes to basic financial statements. The application of remaining policies was not changed during the year ended December 31, 2015.

We noted no transactions entered into by the City during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

ACCOUNTING ESTIMATES AND MANAGEMENT JUDGMENTS

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

- **Depreciation** – Management's estimates of depreciation expense are based on the estimated useful lives of the assets.
- **Compensated Absences** – Estimates for compensated absences payable are based on current sick and vacation leave balances.
- **Net Other Post-Employment Benefit (OPEB) and Net Pension Liabilities** – The City has recorded liabilities and activity for other post-employment benefits (OPEB) and pension benefits. These obligations are calculated using actuarial methodologies described in GASB Statements Nos. 45 and 68. These actuarial calculations include significant assumptions, including projected changes, healthcare insurance costs, investment returns, retirement ages, proportionate share, and employee turnover.

We evaluated the key factors and assumptions used by management to develop these estimates in determining that they are reasonable in relation to the basic financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

CORRECTED AND UNCORRECTED MISSTATEMENTS

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Where applicable, management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management, when applicable, were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

DIFFICULTIES ENCOUNTERED IN PERFORMING THE AUDIT

We encountered no significant difficulties in dealing with management in performing and completing our audit.

DISAGREEMENTS WITH MANAGEMENT

For purposes of this report, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

MANAGEMENT REPRESENTATIONS

We have requested certain representations from management that are included in the management representation letter dated May 18, 2016.

MANAGEMENT CONSULTATIONS WITH OTHER INDEPENDENT ACCOUNTANTS

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the City's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

OTHER AUDIT FINDINGS OR ISSUES

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the City's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

OTHER MATTERS

We applied certain limited procedures to Management's Discussion and Analysis and the pension and OPEB-related required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the supplemental information accompanying the financial statements which is not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the introductory and other information sections which accompany the financial statements but are not RSI. We did not audit or perform other procedures on this other information and we do not express an opinion or provide any assurance on it.

GOVERNMENTAL FUNDS OVERVIEW

This section of the report provides you with an overview of the financial trends and activities of the City's governmental funds, which include the General, special revenue, debt service, and capital project funds. These funds are used to account for the basic services the City provides to all of its citizens, which are financed primarily with property taxes. The governmental fund information in the City's financial statements focuses on budgetary compliance, and the sufficiency of each governmental fund's current assets to finance its current liabilities.

PROPERTY TAXES

Minnesota cities rely heavily on local property tax levies to support their governmental fund activities. For the 2014 fiscal year, local ad valorem property tax levies provided 39.0 percent of the total governmental fund revenues for cities over 2,500 in population, and 35.5 percent for cities under 2,500 in population. Property tax levies certified by Minnesota cities for 2015 increased about 4.0 percent over 2014, compared to an increase of 1.6 percent the prior year. A one-year levy limit imposed on cities over 2,500 in population for the 2014 levy year was lifted for the 2015 levy year.

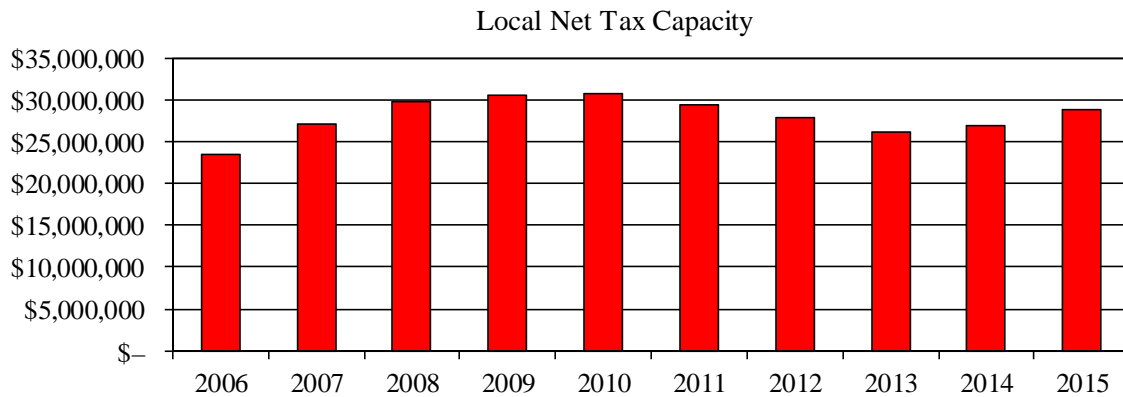

The total market value of property in Minnesota cities increased about 8.5 percent for the 2015 levy year, following a modest increase of 1.1 percent for levy year 2014 and a four-year trend of declining market values for levy years 2010 through 2013. Market values showed increases across all property categories for 2015, with gains in the market values of residential homestead properties (10.0 percent) and non-homestead residential properties (9.7 percent) outpacing the market value gain of commercial/industrial properties (2.2 percent). Because the assessed valuation used for levying property taxes is based on values from the previous fiscal year (e.g., the market value for taxes payable in 2015 is based on estimated values as of January 1, 2014), market value improvement has lagged behind recent upturns in the housing market and the economy in general.

The City's taxable market value increased 3.2 percent for taxes payable in 2014 and 7.0 percent for taxes payable in 2015. The following graph shows the City's changes in taxable market value over the past 10 years:

Tax capacity is considered the actual base available for taxation. It is calculated by applying the state's property classification system to each property's market value. Each property classification, such as commercial or residential, has a different calculation and uses different rates. Consequently, a city's total tax capacity will change at a different rate than its total market value, as tax capacity is affected by the proportion of the City's tax base that is in each property classification from year-to-year, as well as legislative changes to tax rates. The City's tax capacity increased 2.9 percent and 7.2 percent for taxes payable in 2014 and 2015, respectively.

The following graph shows the City's change in tax capacities over the past 10 years:

The improvement in property tax capacities contributed to decreases to the overall state-wide and metro area tax rates for 2015. The following table presents the average tax rates applied to city residents for each of the last two levy years, along with comparative state-wide and metro area rates.

Rates expressed as a percentage of net tax capacity

	All Cities State-Wide		Seven-County Metro Area		City of Prior Lake	
	2014	2015	2014	2015	2014	2015
Average tax rate						
City	48.8	46.9	46.0	43.4	30.7	32.0
County	47.6	44.7	46.6	42.9	39.7	36.6
School	28.9	27.1	30.9	28.3	36.2	32.7
Special taxing	<u>7.3</u>	<u>6.9</u>	<u>9.5</u>	<u>8.8</u>	<u>7.4</u>	<u>7.3</u>
Total	<u><u>132.6</u></u>	<u><u>125.6</u></u>	<u><u>133.0</u></u>	<u><u>123.4</u></u>	<u><u>114.0</u></u>	<u><u>108.6</u></u>

The City's portion of the total tax rate is below both the state-wide and metro area averages, as presented in the table above. The school rate within the City exceeds the state-wide and the metro area averages. The average tax rate in total is below these averages.

GOVERNMENTAL FUND BALANCES

The following table summarizes the changes in the fund balances of the City's governmental funds during the year ended December 31, 2015, presented both by fund balance classification and by fund:

Governmental Funds Change in Fund Balance			
	Fund Balance as of December 31,		Increase (Decrease)
	<u>2015</u>	<u>2014</u>	
Fund balances of governmental funds			
Total by classification			
Nonspendable	\$ 9,150	\$ 710	\$ 8,440
Restricted	9,469,229	5,188,054	4,281,175
Assigned	10,107,820	8,803,981	1,303,839
Unassigned	<u>6,039,025</u>	<u>5,775,889</u>	<u>263,136</u>
Total – governmental funds	<u>\$ 25,625,224</u>	<u>\$ 19,768,634</u>	<u>\$ 5,856,590</u>
Total by fund			
General	\$ 6,124,751	\$ 5,776,647	\$ 348,104
DAG Special Revenue	743,774	681,406	62,368
Debt Service	7,559,836	1,543,772	6,016,064
Construction	4,234,770	1,346,445	2,888,325
Special revenue nonmajor funds	883,083	1,088,160	(205,077)
Capital projects nonmajor funds	<u>6,079,010</u>	<u>9,332,204</u>	<u>(3,253,194)</u>
Total – governmental funds	<u>\$ 25,625,224</u>	<u>\$ 19,768,634</u>	<u>\$ 5,856,590</u>

In total, the fund balances of the City's governmental funds increased by \$5,856,590 during the year ended December 31, 2015. Debt Service Fund balance increased due to the issuance of the refunding portion of the 2015A General Obligation Improvement Bonds that will refund the 2007A General Obligation Water Treatment Plan Revenue Bonds. Construction Fund balance increased due to the issuance of the new money portion of the 2015A General Obligation Improvements Bonds and the 2015B General Obligation Improvement Bonds. Capital Projects Fund balances decreased due to the significant amount of capital outlay expended during 2015.

GOVERNMENTAL FUNDS REVENUE AND EXPENDITURES

The following table presents the per capita revenue of the City's governmental funds for the past three years, along with state-wide averages.

We have included the most recent comparative state-wide averages available from the Office of the State Auditor to provide a benchmark for interpreting the City's data. The amounts received from the typical major sources of governmental fund revenue will naturally vary between cities based on factors such as the City's stage of development, location, size and density of its population, property values, services it provides, and other attributes. It will also differ from year-to-year due to the effect of inflation and changes in the City's operation. Also, certain data on these tables may be classified differently than how they appear on the City's financial statements in order to be more comparable to the state-wide information, particularly in separating capital expenditures from current expenditures.

We have designed this section of our management report using per capita data in order to better identify unique or unusual trends and activities of your city. We intend for this type of comparative and trend information to complement, rather than duplicate, information in the Management's Discussion and Analysis. An inherent difficulty in presenting per capita information is the accuracy of the population count, which for most years is based on estimates.

Governmental Funds Revenue per Capita						
With State-Wide Averages by Population Class						
Year	State-Wide			City of Prior Lake		
	December 31, 2014			2013	2014	2015
Population	2,500–10,000	10,000–20,000	20,000–100,000	24,223	24,911	25,049
Property taxes	\$ 427	\$ 396	\$ 427	\$ 388	\$ 379	\$ 414
Tax increments	26	37	46	20	19	19
Franchise and other taxes	32	42	37	24	24	24
Special assessments	59	51	64	47	25	46
Licenses and permits	28	27	41	32	23	23
Intergovernmental revenues	298	264	166	166	82	115
Charges for services	105	82	90	110	111	100
Other	66	72	65	1	49	34
Total revenue	\$ 1,041	\$ 971	\$ 936	\$ 788	\$ 712	\$ 775

In total, the City's governmental fund revenues for 2015 were \$19,411,399, an increase of \$1,676,281 (9.5 percent) from the prior year. On a per capita basis, the City received \$775 in governmental fund revenue for 2015, an increase of \$63 from the prior year. In general, the City has generated less governmental fund revenue per capita than the state-wide averages. Most of this relates to lower than average revenues in many of the development categories, including tax increment and special assessments.

The expenditures of governmental funds will also vary from state-wide averages and from year-to-year, based on the City's circumstances. Expenditures are classified into three types as follows:

- **Current** – These are typically the general operating type expenditures occurring on an annual basis, and are primarily funded by general sources such as taxes and intergovernmental revenues.
- **Capital Outlay and Construction** – These expenditures do not occur on a consistent basis, more typically fluctuating significantly from year-to-year. Many of these expenditures are project-oriented, and are often funded by specific sources that have benefited from the expenditure, such as special assessment improvement projects.
- **Debt Service** – Although the expenditures for debt service may be relatively consistent over the term of the respective debt, the funding source is the important factor. Some debt may be repaid through specific sources such as special assessments or redevelopment funding, while other debt may be repaid with general property taxes.

The City's expenditures per capita of its governmental funds for the past three years, together with state-wide averages, are presented in the following table:

Governmental Funds Expenditures per Capita						
With State-Wide Averages by Population Class						
Year	State-Wide			City of Prior Lake		
	December 31, 2014			2013	2014	2015
Population	2,500–10,000	10,000–20,000	20,000–100,000	24,223	24,911	25,049
Current						
General government	\$ 131	\$ 104	\$ 87	\$ 111	\$ 113	\$ 105
Public safety	248	237	254	191	190	193
Streets and highways	121	119	114	79	75	83
Culture and recreation	86	101	92	69	71	67
All other	69	89	98	8	5	7
	<u>655</u>	<u>650</u>	<u>645</u>	<u>458</u>	<u>454</u>	<u>455</u>
Capital outlay and construction	357	278	276	359	254	567
Debt service						
Principal	180	163	115	161	128	128
Interest and fiscal charges	54	40	34	54	50	59
	<u>234</u>	<u>203</u>	<u>149</u>	<u>215</u>	<u>178</u>	<u>187</u>
Total expenditures	<u>\$ 1,246</u>	<u>\$ 1,131</u>	<u>\$ 1,070</u>	<u>\$ 1,032</u>	<u>\$ 886</u>	<u>\$ 1,209</u>

Total expenditures in the City's governmental funds for 2015 were \$30,281,521, an increase of \$8,198,011 (37.1 percent) from the prior year. On a per capita basis, the City expended a total of \$1,209 in 2015. Capital outlay expenditures increased \$313 per capita from the prior year due to significant street construction and equipment replacement expenditures in 2015. Debt service expenditures for 2015 were \$9 per capita higher than the prior year, mainly due to the payment of interest on new bonds in 2015.

GENERAL FUND

The City's General Fund accounts for the financial activity of the basic services provided to the community. The primary services included within this fund are the administration of the municipal operation, police and fire protection, building inspection, streets and highway maintenance, and culture and recreation. The graph below illustrates the change in the General Fund financial position over the last five years. We have also included a line representing annual expenditures and operating transfers out to reflect the change in the size of the General Fund operation over the same period.

The City's General Fund cash and investments balance at December 31, 2015 was \$6,902,926, an increase of \$280,528. Total fund balance at December 31, 2015 was \$6,124,751, which is an increase of \$348,104 from the prior year.

As the graph illustrates, the City has generally been able to maintain healthy cash and fund balance levels as the volume of financial activity has grown. This is an important factor because a government, like any organization, requires a certain amount of equity to operate. A healthy financial position allows the City to avoid volatility in tax rates; helps minimize the impact of state funding changes; allows for the adequate and consistent funding of services, repairs, and unexpected costs; and is a factor in determining the City's bond rating and resulting interest costs. Maintaining an adequate fund balance has become increasingly important given the fluctuations in state funding for cities in recent years.

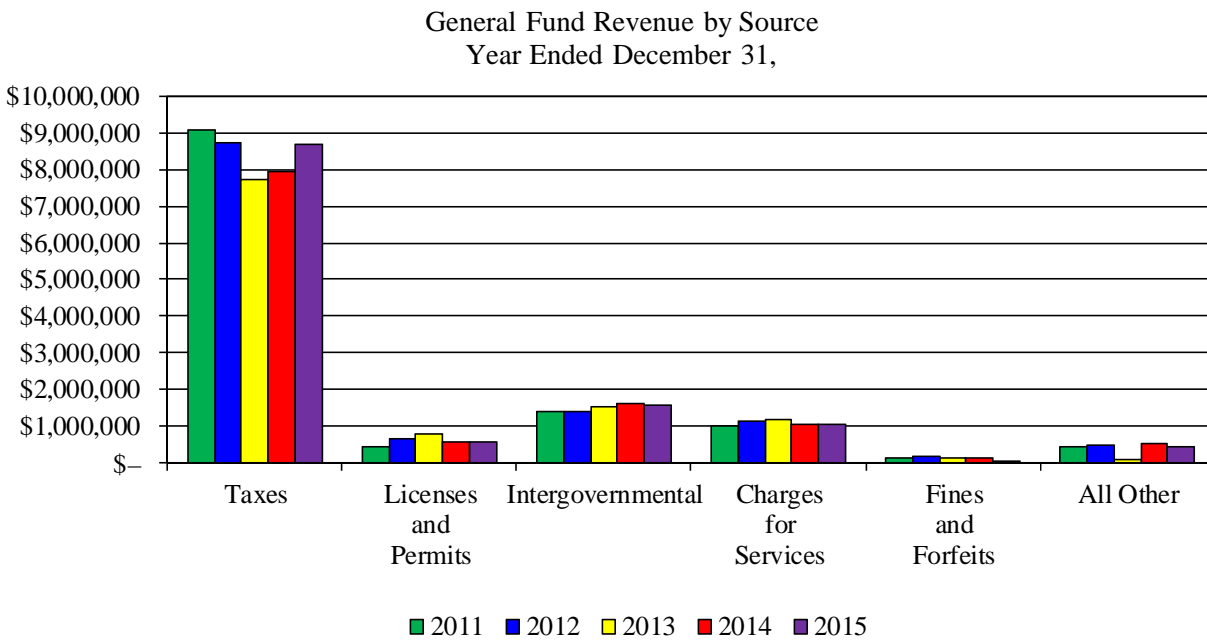

The City has formally adopted a fund balance policy regarding the minimum unrestricted fund balance for the General Fund. The policy establishes that the City will strive to maintain an unrestricted General Fund balance (which includes committed, assigned, and unassigned classifications) between 40 and 50 percent of the subsequent year's General Fund budgeted expenditures and transfers out. At December 31, 2015, the unrestricted fund balance of the General Fund was 46.7 percent of the subsequent year's budgeted expenditures and transfers out.

The following chart reflects the City's General Fund revenue sources for 2015 compared to budget:

General Fund revenue for 2015 was \$12,329,269, which was \$37,515 (0.3 percent) more than budget.

The following graph presents the City's General Fund revenue by source for the last five years. The graph reflects the City's increased reliance on property tax revenue in recent years.

Total General Fund revenue for 2015 was \$455,504 (3.8 percent) higher than last year. Tax revenue increased by \$733,503, or 9.2 percent, related to the increased tax levy. Fines and forfeitures were \$125,835 lower than last year due to the City no longer recognizing these as revenue because the City acts as a pass-through entity. All other revenue was lower than last year as well by \$105,769, or 19.9 percent, mainly due to lower investment earnings on the City's portfolio compared to the prior year.

The following graphs illustrate the components of General Fund spending for 2015 compared to budget:

Total General Fund expenditures for 2015 were \$11,307,570, which was \$537,214 (4.5 percent) under budget. General government expenditures were \$132,705 under budget due to the City not having filled all the staff positions during the year. Public works expenditures were \$134,289 under budget, due mostly to anticipated projects that did not occur in 2015. All other expenditures were \$150,561 under budget, mainly in capital outlay as some projects didn't occur.

The following graph presents the City's General Fund expenditures by function for the last five years:

Total General Fund expenditures for 2015 were \$610,913 (5.1 percent) lower than the previous year. General government and all other expenditures decreased by \$248,327 and \$463,667, respectively. Open staffing positions and the reduced need for consultants contributed to the decrease in general government. All other decreases were mainly related to significant capital outlay for technology, parks, and economic development in the prior year.

ENTERPRISE FUNDS OVERVIEW

The City maintains a number of enterprise funds to account for services the City provides that are financed primarily through fees charged to those utilizing the service. This section of the report provides you with an overview of the financial trends and activities of the City's enterprise funds, which includes the Water, Sewer, Water Quality, and Transit Funds. The Transit Fund was closed in 2015.

ENTERPRISE FUNDS FINANCIAL POSITION

The following table summarizes the changes in the financial position of the City's enterprise funds during the year ended December 31, 2015, presented by both classification and by fund:

Enterprise Funds Change in Financial Position			
	Net Position as of December 31,		Increase (Decrease)
	<u>2015</u>	<u>2014</u>	
Net position of enterprise funds			
Total by classification			
Net investment in capital assets	\$ 47,805,809	\$ 46,627,184	\$ 1,178,625
Unrestricted	<u>3,881,319</u>	<u>6,415,575</u>	<u>(2,534,256)</u>
Total – enterprise funds	<u>\$ 51,687,128</u>	<u>\$ 53,042,759</u>	<u>\$ (1,355,631)</u>
Total by fund			
Water	\$ 30,730,432	\$ 31,192,000	\$ (461,568)
Sewer	19,327,366	20,348,812	(1,021,446)
Water Quality	<u>1,629,330</u>	<u>1,501,947</u>	<u>127,383</u>
Total – enterprise funds	<u>\$ 51,687,128</u>	<u>\$ 53,042,759</u>	<u>\$ (1,355,631)</u>

INTERNAL SERVICE FUND

During the year ended December 31, 2011, the City established a Compensated Absences Internal Service Fund to finance the compensated absence obligations of the governmental funds of the City. At December 31, 2015, this fund had assets totaling \$408,279, while liabilities totaled \$881,375, leaving a deficit net position balance of (\$473,096). We recommend that the City continue to include the financing of these obligations as part of its long range financial plans.

WATER ENTERPRISE FUND

The following graph presents five years of comparative operating results for the City's Water Fund:

The Water Fund ended 2015 with net position of \$30,730,432, a decrease of \$461,568 from the prior year, which includes an adjustment to beginning net position of \$415,995 from the change in accounting principle, as mentioned earlier in this report. Of this, \$28,577,835 represents the investment in capital assets, leaving \$2,152,597 in unrestricted net position. The Water Fund had transfers out totaling \$2,279,145 in fiscal 2015 to support other funds, pay debt service, and provide for construction projects.

Operating revenue in the Water Fund was \$3,390,052, an increase of 11.1 percent from the prior year. This increase was due to a combination of increased rates and water usage in fiscal 2015 compared to 2014 water usage, which had decreased due to major flooding in the area during the spring of 2014.

Water Fund operating expenses for 2015 were \$2,347,154, an increase of \$49,957 (2.2 percent) from the previous year. The largest factor contributing to the change was an increase in utilities of \$43,228.

SEWER ENTERPRISE FUND

The following graph presents five years of comparative operating results for the City’s Sewer Fund:

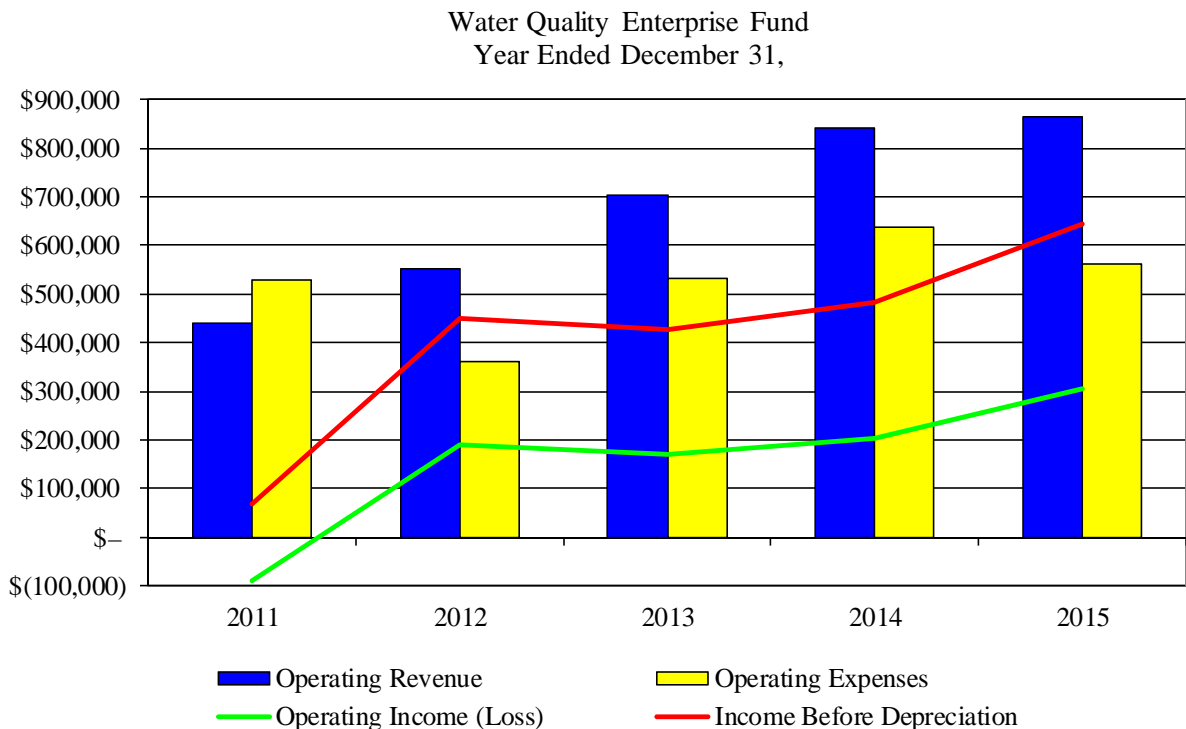

The Sewer Fund ended 2015 with net position of \$19,327,366, a decrease of \$1,021,446 from the prior year, which includes an adjustment to beginning net position of \$346,662 from the change in accounting principle, as mentioned earlier in this report. Of this, \$18,101,305 represents the City’s investment in capital assets, leaving \$1,226,061 in unrestricted net position. The Sewer Fund had transfers out totaling \$1,343,820 in fiscal 2015 to support other funds, pay debt service, and provide for construction projects.

Operating revenue in the Sewer Fund was \$2,432,925, an increase of \$63,502, or 2.7 percent, from the prior year, mainly related to increased rates. Sewer Fund operating expenses for 2015 were \$2,468,932, an increase of \$21,314, or 0.9 percent.

WATER QUALITY ENTERPRISE FUND

The following graph presents five years of comparative operating results for the City's Water Quality Fund:

The Water Quality Fund ended 2015 with net position of \$1,629,330, an increase of \$127,383 from the prior year, which includes a change in accounting principle, as previously mentioned, that adjusted beginning net position down by \$173,331. Of this, \$1,126,669 represents the investment in capital assets, leaving \$502,661 in unrestricted net position.

Operating revenue in the Water Quality Fund was \$865,244, an increase of \$21,952, or 2.6 percent, from the prior year due to an increase in the rates in fiscal 2015. Water Quality Fund operating expenses for 2015 were \$560,820, a decrease of \$77,750, or 12.2 percent, from the previous year, due mostly to decreased other services and charges.

State and federal grant income and interest income, which are not included in the table above, totaled \$42,402 and \$9,966, respectively, in fiscal 2015. After including this revenue, the Water Quality Fund reflected income before contributions and transfers of \$356,792.

TRANSIT FUND

During the year ended December 31, 2014, the City transferred the responsibility for operating a transit operation to the Minnesota Valley Transit Authority (MVTA). As part of transferring this responsibility, the City is required by Minnesota Statutes to transfer the remaining assets, liabilities, and net position to the MVTA as well. During fiscal 2015, the City earned interest revenue on cash and investments held in the Transit Fund for a portion of the year. The transfer of this revenue to the MVTA is reported as a special item in the Statement of Activities and the Statement of Revenues, Expenses, and Changes in Net Position in fiscal 2015.

The special item – transfer of operations reported in the City’s financial report totaled \$25,200. The Transit Fund was closed in 2015.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

In addition to fund-based information, the current reporting model for governmental entities also requires the inclusion of two government-wide financial statements designed to present a clear picture of the City as a single, unified entity. These government-wide statements provide information on the total cost of delivering services, including capital assets and long-term liabilities.

STATEMENT OF NET POSITION

The Statement of Net Position essentially tells you what your city owns and owes at a given point in time, the last day of the fiscal year. Theoretically, net position represents the resources the City has to use for providing services after its debts are settled. However, those resources are not always in spendable form, or there may be restrictions on how some of those resources can be used. Therefore, net position is divided into three components: net investment capital assets, restricted, and unrestricted.

The following table presents the components of the City's net position as of December 31, 2015 and 2014 for governmental activities and business-type activities:

	As of December 31,		Increase (Decrease)
	2015	2014	
Net position			
Governmental activities			
Net investment in capital assets	\$ 94,087,717	\$ 87,398,664	\$ 6,689,053
Restricted	6,836,277	4,950,822	1,885,455
Unrestricted	11,465,626	14,190,355	(2,724,729)
Total governmental activities	<u>112,389,620</u>	<u>106,539,841</u>	5,849,779
Business-type activities			
Net investment in capital assets	47,805,809	46,627,184	1,178,625
Unrestricted	3,881,319	6,415,575	(2,534,256)
Total business-type activities	<u>51,687,128</u>	<u>53,042,759</u>	(1,355,631)
Total net position	<u>\$ 164,076,748</u>	<u>\$ 159,582,600</u>	<u>\$ 4,494,148</u>

The City's total net position at December 31, 2015 was \$4,494,148 higher than the total net position reported at the previous year-end. The increase in the net investment in capital assets balance was mostly due to capital outlay activity during fiscal 2015.

The City recorded a change in accounting principle for reporting its participation in the Public Employees Retirement Association and Prior Lake Fire Relief Association pension plans that reduced beginning unrestricted net position in governmental activities by \$4,181,955 and business-type activities by \$935,988, for a total reduction of \$5,117,943.

At the end of the current fiscal year, the City is able to present positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior year.

STATEMENT OF ACTIVITIES

The Statement of Activities tracks the City's yearly revenues and expenses, as well as any other transactions that increase or reduce total net positions. These amounts represent the full cost of providing services. The Statement of Activities provides a more comprehensive measure than just the amount of cash that changed hands, as reflected in the fund-based financial statements. This statement includes the cost of supplies used, depreciation of long-lived capital assets, and other accrual-based expenses.

The following table presents the change in the net position of the City for the years ended December 31, 2015 and 2014:

	2015		2014	
	Expenses	Program Revenues	Net Change	Net Change
Net (expense) revenue				
Governmental activities				
General government	\$ 3,266,222	\$ 791,037	\$ (2,475,185)	\$ (2,816,941)
Public safety	5,426,539	2,022,409	(3,404,130)	(3,021,205)
Public works	4,775,320	9,482,815	4,707,495	1,387,465
Culture and recreation	2,271,719	313,048	(1,958,671)	(1,785,789)
Economic development	590,532	253,659	(336,873)	(360,475)
Interest on long-term debt	1,410,844	–	(1,410,844)	(1,185,474)
Business-type activities				
Water	2,347,154	3,969,925	1,622,771	1,074,222
Sewer	2,468,932	2,704,876	235,944	178,308
Water quality	560,820	907,646	346,826	366,763
Transit	–	–	–	(163,723)
Total net (expense) revenue	<u>\$ 23,118,082</u>	<u>\$ 20,445,415</u>	(2,672,667)	(6,326,849)
General revenues				
Taxes			11,452,374	10,518,306
Unrestricted grants and contributions			13,250	52,555
Investment earnings			526,006	1,112,257
Other revenues			318,328	210,423
Special item – transfer of operations			(25,200)	(1,371,480)
Total general revenues			<u>12,284,758</u>	<u>10,522,061</u>
Change in net position			<u>\$ 9,612,091</u>	<u>\$ 4,195,212</u>

One of the goals of this statement is to provide a side-by-side comparison to illustrate the difference in the way the City's governmental and business-type operations are financed. The table clearly illustrates the dependence of the City's governmental operations on general revenues, such as property taxes and unrestricted grants. It also shows that, for the most part, the City's business-type activities are generating sufficient program revenues (service charges and program-specific grants) to cover expenses. This is critical given the current downward pressures on the general revenue sources.

LEGISLATIVE UPDATES

Despite the 2015 legislative session beginning with a projected budget excess of \$1.87 billion for the 2016–2017 biennium, the most favorable budget forecast in over a decade, little was accomplished during the regular legislative session due to partisan disagreement. The regular session adjourned without the Legislature bringing forth a number of significant funding bills, including the Omnibus Legacy Bill (funding for outdoor heritage, clean water, parks and trails, arts, and cultural heritage) and a bonding bill for capital projects. The Governor subsequently vetoed a number of other funding bills, including the Omnibus E–12 Education Bill due to the Legislature not addressing his demand for a universal preschool provision. Eventually, a one-day special session produced funding bills for E–12 education, jobs and energy, Legacy programs, environment and agriculture, and capital investment.

The following is a summary of recent legislation affecting Minnesota cities in 2015 and into the future:

Local Government Aid (LGA) – The Legislature completely overhauled the LGA formula for fiscal year 2014 and thereafter, creating a three-tiered formula that includes separate “need factor” calculations for cities with populations under 2,500, between 2,500 and 10,000, or over 10,000. The new formula simplified the LGA calculation, and reduced the volatility of the LGA distribution by limiting the amount it may decline in a given year. Beginning in 2015, any reduction to a city’s calculated LGA distribution will be limited to the lesser of \$10 per capita, or 5 percent of their previous year net tax levy. For cities that gain under the new formula, the increases will be distributed proportionate to their unmet need, as determined by the new “need factor” calculations. The state-wide LGA appropriation was \$516.9 million for fiscal 2015, and is \$519.4 million for fiscal 2016 and thereafter.

Sales Tax Exemption – Cities (both home-rule and statutory) were exempted from paying sales tax on qualifying purchases, effective for purchases made on or after January 1, 2014. Purchases of goods or services by an exempt local government for a publicly-provided liquor store, gas or electric utility, golf course, marina, campground, café, laundromat, solid waste hauling or recycling operation, or landfill will remain taxable.

The 2014 Legislature extended the definition of tax exempt local government to include all special district; city, county, or township instrumentalities; economic development authorities; housing and redevelopment authorities; and all joint power boards or organizations. However, the effective date of this expanded exemption list was delayed until January 1, 2017 by the 2015 Legislature.

Omnibus Bonding Bill – The Legislature approved a scaled-down Omnibus Bonding Bill during the special session, authorizing approximately \$370 million in capital improvements. Included in the funding approved was \$172.5 million for transportation infrastructure, \$23.5 million for flood hazard mitigation, \$10 million for Public Financing Agency (PFA) grants to municipalities for wastewater infrastructure, and \$1.5 million to the Metropolitan Council for inflow and infiltration improvement grants to metro area cities.

Legacy Funding – The Legacy bill included \$9.25 million annually to finance grants for city water infrastructure improvements through the PFA. It also included \$17.25 million annually to fund “SCORE” block grants to counties for recycling and waste reduction (a portion of which is passed through to cities) and \$1 million of annual funding for a new grant program to establish or improve recycling programs in non-metro area cities.

Broadband Initiative – The Omnibus Jobs and Energy Bill passed in the special session included \$10.6 million to finance the Border-to-Border Broadband Grant Program, a one-time appropriation available until June 30, 2017.

Municipal State-Aid Streets – Included in the Omnibus Transportation Bill were annual funding allocations for municipal state-aid streets of \$107.7 million for fiscal 2016 and \$178.1 million for fiscal 2017, which represents an increase of approximately \$41 million over the previous biennium.

Small Cities Assistance Account – A one-time appropriation of \$12.5 million was provided to create a new Small Cities Assistance Account to assist with construction and maintenance of roads located within eligible cities, defined as a statutory or home-rule charter city that does not receive municipal state aid street financing (generally those with a population under 5,000). The aid will be distributed to eligible cities biannually in each year funds are available based on the following formula: 5 percent equally to all eligible cities; 35 percent allocated proportionately on each city’s share of lane miles to the total for all eligible cities; 35 percent allocated proportionately on each city’s population to the total for all eligible cities; and 25 percent allocated proportionately on each city’s state-aid adjustment factor to the total for all eligible cities.

Workforce Housing Grant Program – The Omnibus Jobs and Energy Bill included annual funding of \$2 million for fiscal 2016 and 2017 for a new Workforce Housing Grant Program. Eligible cities can use the grants to develop “market rate residential rental property” to serve employees of businesses located in the eligible project areas. The maximum grant award may not exceed 25 percent of the rental housing development project cost; and awards must be matched by a local unit of government, business, or nonprofit organization with \$1 for each \$2 of grant funding.

Automated License Plate Reader (ALPR) Policy – Law enforcement agencies that utilize ALPRs are required to establish policies governing their use that are consistent with statutory guidelines. The Legislature placed limitations on the type of data that can be collected using ALPRs, and clarified the circumstances under which that data is considered public or private. A limitation of 60 days was established for the retention of data collected by ALPR not related to an active criminal investigation. Standards were established for the sharing of ALPR data between law enforcement agencies.

Elections – The Elections Omnibus Bill made numerous changes to elections administration laws, including requirements for filing fees for statutory cities, ballot formatting and marking, absentee ballots, and election recounts.

Energy Conservation Measures – The Uniform Municipal Contracting Law was amended to add water metering devices that increase efficiency to the definition of energy conservation measures, enabling municipalities to enter into guaranteed energy savings contracts for the use of water metering devices.

Responsible Contractor Requirement – The “responsible contractor” law enacted by the 2014 Legislature became effective on January 1, 2015. Contractors who bid on public contracts in excess of \$50,000 are now required to certify that they are a “responsible bidder” in order to be awarded a contract as the lowest responsible bidder or best value alternative. The 2015 Legislature made several clarifications and modifications to the law, including: exempting design professionals and materials suppliers from the requirements; making motor carriers subject to the requirements and establishing a separate verification standard for them; excluding tax increment financing revenue from the value of a construction contract under the law; and allowing general contractors to submit bids without obtaining verification from all subcontractors that bid on the project (the successful prime contractor must submit a supplemental verification under oath prior to the execution of the contract).

Appraisal Requirements for Eminent Domain – Effective July 1, 2015, the appraisal requirements for the acquisition of property by eminent domain are changed to require the acquiring entity to obtain at least one appraisal for the property proposed to be acquired only if the acquisition value is greater than \$25,000. For acquisitions less than \$25,000, the acquiring entity may obtain a minimum damage acquisition report in lieu of an appraisal.

Firefighter Employment Provisions and Volunteer Benefits – The Omnibus Public Safety Finance and Policy Bill made a number of changes related to firefighters, including: allowing relief association dues as a voluntarily payroll deduction, allowing volunteer firefighters to be paid less frequently than every 31 days, requiring the licensure of all full-time firefighters by the State Board of Firefighter Training and Education, and expanding “continued employer health insurance benefits” to include dependents of volunteer firefighters killed in the line of duty.

Police and Firefighter Retirement Supplemental State Aid – The volunteer firefighter portion of the Police and Firefighter Retirement Supplemental State Aid Program was made permanent. The minimum obligation of municipalities to an associated relief association special fund is now reduced by the amount of both fire state aid and police and firefighter retirement supplemental state aid. Police and firefighter retirement supplemental state aid is also added to the calculation of the exception to municipal ratification requirement for lump-sum plans.

Pensions – A number of changes to the pension plans administered by the Public Employees Retirement Association (PERA) were adopted, effective June 30, 2015, including:

- The future interest rate actuarial assumption for the PERA General Plan and PERA Police and Fire Plan are changed from 8.5 percent to 8.0 percent for actuarial valuations prepared after June 30, 2015.
- The refund repayment interest rate and prior service credit purchase payment determination rate for the PERA General Plan and PERA Police and Fire Plan are also changed from 8.5 percent to 8.0 percent.
- The CPI-based post-retirement adjustment mechanism for the PERA Police and Fire Plan is replaced with a flat 2.5 percent increase when the plan reaches a 90 percent funding level.
- The contribution stabilizer mechanisms applicable to the PERA General Plan are revised, broadening the factors the plan’s Board of Trustees may consider before recommending an increase in the plan contribution rates.
- Definitions of salary, termination of service, allowable service, retirement, and volunteer firefighter were revised for all applicable PERA plans.
- Changes in eligibility, service pension levels, ancillary benefits, and service time calculations were made to the PERA Statewide Volunteer Firefighter Plan, lump sum retirement division. A change was also made to create a “monthly benefit retirement division” within this plan to facilitate the transfer of individual volunteer firefighter association monthly benefit plans to the statewide plan.
- A number of administrative language changes were made to complete the merger of the Minneapolis Employees Retirement Fund into the PERA General Plan, which was effective January 1, 2015.

ACCOUNTING AND AUDITING UPDATES

GASB STATEMENT NO. 72, *FAIR VALUE MEASURE AND APPLICATION*

The primary objective of this statement is to address accounting and financial reporting issues related to fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement provides guidance for determining a fair value measurement for financial reporting purposes. It also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.

This statement generally requires investments to be measured at fair value. An investment is defined as a security or other asset that (a) a government holds primarily for the purpose of income or profit and (b) has a present service capacity based solely on its ability to generate cash or to be sold to generate cash. This statement is effective for financial statements for fiscal years beginning after June 15, 2015. Earlier application is encouraged.

GASB STATEMENT NO. 73, *ACCOUNTING AND FINANCIAL REPORTING FOR PENSIONS AND RELATED ASSETS THAT ARE NOT WITHIN THE SCOPE OF GASB STATEMENT 68, AND AMENDMENTS TO CERTAIN PROVISIONS OF GASB STATEMENTS 67 AND 68*

The objective of this statement is to improve the usefulness of information about pensions included in financial statements of state and local governments for making decisions and assessing accountability. This statement also clarifies the application of certain provisions of GASB Statement Nos. 67 and 68 regarding 10-year schedules of required supplementary information (RSI) and other recognition issues pertaining to employers and nonemployer contributing entities. These changes will improve financial reporting by establishing a single framework for the presentation of information about pensions, enhancing comparability for similar information reported by employers and nonemployer contributing entities.

The requirements of this statement that address accounting and financial reporting by employers and governmental nonemployer contributing entities for pensions not within the scope of GASB Statement No. 68 are effective for financial statements for fiscal years beginning after June 15, 2016, and the requirements of this statement that address financial reporting for assets accumulated for purposes of providing those pensions are effective for fiscal years beginning after June 15, 2015. The requirements of this statement for pension plans that are within the scope of GASB Statement No. 67 or for pensions that are within the scope of GASB Statement No. 68 are effective for fiscal years beginning after June 15, 2015. Earlier application is encouraged.

GASB STATEMENT NO. 74, *FINANCIAL REPORTING FOR POSTEMPLOYMENT BENEFIT PLANS OTHER THAN PENSION PLANS*

The objective of this statement is to improve the usefulness of information about post-employment benefits other than pensions (other post-employment benefits [OPEB]). This statement replaces GASB Statement Nos. 43 and 57. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in GASB Statement Nos. 25, 43, and 50. GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, establishes new accounting and financial reporting requirements for governments whose employees are provided with OPEB, as well as for certain nonemployer governments that have a legal obligation to provide financial support for OPEB provided to the employees of other entities.

This statement will improve financial reporting primarily through enhanced note disclosures and schedules of RSI that will be presented by OPEB plans administered through trusts meeting the specified criteria. The new information will enhance the decision-usefulness of the financial reports of those OPEB plans, their value for assessing accountability, and their transparency by providing information about measures of net OPEB liabilities and explanations of how and why those liabilities changed from year-to-year. The net OPEB liability information, including ratios, will offer an up-to-date indication of the extent to which the total OPEB liability is covered by the fiduciary net position of the OPEB plan. The comparability of the reported information for similar types of OPEB plans will be improved by the changes related to the attribution method used to determine the total OPEB liability. The contribution schedule will provide measures to evaluate decisions related to the assessment of contribution rates in comparison with actuarially determined rates, if such rates are determined. In addition, new information about rates of return on OPEB plan investments will inform financial report users about the effects of market conditions on the OPEB plan's assets over time and provide information for users to assess the relative success of the OPEB plan's investment strategy and the relative contribution that investment earnings provide to the OPEB plan's ability to pay benefits to plan members when they come due.

This statement is effective for financial statements for fiscal years beginning after June 15, 2016. Earlier application is encouraged.

GASB STATEMENT NO. 75, ACCOUNTING AND FINANCIAL REPORTING FOR POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

The primary objective of this statement is to improve accounting and financial reporting by state and local governments for post-employment benefits other than pensions (OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This statement replaces the requirements of GASB Statement Nos. 45 and 57. GASB Statement No. 74 establishes new accounting and financial reporting requirements for OPEB plans.

This statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit OPEB, this statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Note disclosure and RSI requirements about defined benefit OPEB also are addressed. This statement is effective for fiscal years beginning after June 15, 2017. Earlier application is encouraged.

Similar to changes implemented for pensions, this statement requires the liability of employers and nonemployer contributing entities to employees for defined benefit OPEB (net OPEB liability) to be measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service (total OPEB liability), less the amount of the OPEB plan's fiduciary net position.

GASB STATEMENT NO. 77, TAX ABATEMENT DISCLOSURES

This statement requires disclosure of tax abatement information about (1) a reporting government's own tax abatement agreements, and (2) those that are entered into by other governments and that reduce the reporting government's tax revenues. Tax abatements are widely used by state and local governments, particularly to encourage economic development. For financial reporting purposes, this statement defines a tax abatement as resulting from an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens.

The requirements of this statement improve financial reporting by giving users of financial statements essential information that is not consistently or comprehensively reported to the public at present. Disclosure of information about the nature and magnitude of tax abatements will make these transactions more transparent to financial statement users. As a result, users will be better equipped to understand (1) how tax abatements affect a government's future ability to raise resources and meet its financial obligations, and (2) the impact those abatements have on a government's financial position and economic condition. The requirements of this statement are effective for financial statements for periods beginning after December 15, 2015. Earlier application is encouraged.

GASB STATEMENT NO. 78, PENSIONS PROVIDED THROUGH CERTAIN MULTIPLE-EMPLOYER DEFINED BENEFIT PENSION PLANS

The objective of this statement is to address a practice issue regarding the scope and applicability of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27*. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. Prior to the issuance of this statement, the requirements of GASB Statement No. 68 applied to the financial statements of all state and local governmental employers whose employees are provided with pensions through pension plans that are administered through trusts that meet the criteria in paragraph 4 of GASB Statement No. 68.

This statement amends the scope and applicability of GASB Statement No. 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing, multiple-employer defined benefit pension plan that (1) is not a state or local governmental pension plan, (2) is used to provide defined benefit pensions both to employees of state or local governmental employers and to employees of employers that are not state or local governmental employers, and (3) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). This statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and RSI for pensions that have the characteristics described above. The requirements of this statement are effective for reporting periods beginning after December 15, 2015. Early application is encouraged.

GASB STATEMENT NO. 79, CERTAIN EXTERNAL INVESTMENT POOLS AND POOL PARTICIPANTS

This statement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. An external investment pool qualifies for that reporting if it meets all of the applicable criteria established in this statement. The specific criteria address (1) how the external investment pool transacts with participants; (2) requirements for portfolio maturity, quality, diversification, and liquidity; and (3) calculation and requirements of a shadow price. Significant noncompliance prevents the external investment pool from measuring all of its investments at amortized cost for financial reporting purposes. If an external investment pool meets the criteria in this statement and measures all of its investments at amortized cost, the pool's participants also should measure their investments in that external investment pool at amortized cost for financial reporting purposes. If an external investment pool does not meet the criteria in this statement, the pool's participants should measure their investments in that pool at fair value.

This statement establishes additional note disclosure requirements for qualifying external investment pools that measure all of their investments at amortized cost for financial reporting purposes and for governments that participate in those pools. Those disclosures for both the qualifying external investment pools and their participants include information about any limitations or restrictions on participant withdrawals. The requirements of this statement are effective for reporting periods beginning after June 15, 2015, except for certain provisions on portfolio quality, custodial credit risk, and shadow pricing. Those provisions are effective for reporting periods beginning after December 15, 2015. Earlier application is encouraged.

GASB STATEMENT NO. 80, *BLENDING REQUIREMENTS FOR CERTAIN COMPONENT UNITS*—AN AMENDMENT OF GASB STATEMENT NO. 14

The objective of this statement is to clarify the financial statement presentation requirements for certain component units. This statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units—an amendment of GASB Statement No. 14*. The requirements of this statement are effective for reporting periods beginning after June 15, 2016. Earlier application is encouraged.

CHANGES TO REQUIREMENTS FOR FEDERAL GRANTS

In December 2013, the U.S. Office of Management and Budget (OMB) Circular released final guidance on administrative requirements, cost principles, and audit requirements for federal awards. The final guidance, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (“Uniform Guidance”), supersedes and streamlines eight existing OMB Circulars into one document that includes OMB Circulars A-21, A-87, A-89, A-102, A-110, A-122, A-133, and the guidance in OMB Circular A-50 on Single Audit Act follow-up.

The Uniform Guidance, which is located in Title 2 of the Code of Federal Regulations (CFR), consolidates previous guidance into a streamlined format that aims to improve both its clarity and accessibility, lessen administrative burdens for federal award recipients, and reduce the risk of waste, fraud, and abuse.

The Following is a Summary of Significant Changes for Grant Recipients:

- Changes time and effort documentation requirements by providing possibilities for alternative methods of accounting for salaries and wages based on achievement of performance outcomes.
- Non-federal entities must have a financial management system that includes, but is not limited to: a comparison of expenditures with budget amounts for each federal award, written procedures to implement the requirements of cash management, and written procedures for determining the allowability of costs in accordance with Subpart E – Cost Principles.
- Governments must comply with the new general procurement standards which include, but are not limited to: written standards covering conflicts of interest of employees engaged in the selection, award, and administration of contracts and documented procurement procedures that include an analysis of lease versus purchase alternatives when appropriate.
- Governments will now be required to follow the five procurement methods which include, at times, more restrictive compliance requirements than Minnesota Statutes. For example: small purchases (over \$3,000 prior to October 1, 2015 and over \$3,500 after October 1, 2015) will require quotes.
- There are new requirements for governments with subrecipients (or those making subawards), which include, but are not limited to: a required written risk assessment of each subrecipient, which may require you to provide training and on-site reviews of their program operations.
- For governments with subrecipients or those that operate as a fiscal host of a federal grant award and thus provide subawards, payments must be made in advance to the subrecipients, unless certain requirements are not met, then the reimbursement method can be used.

Among Other Matters Specifically Applicable to Auditors, Changes to the Uniform Guidance Include:

- Raising both the threshold that triggers a Single Audit and the threshold for Type A/B program determination to \$750,000.
- Changing the high-risk program criteria for Type A programs.
- Reducing the number of high-risk Type B programs that must be tested as major programs.
- Revising the Type B small program floor.
- Reducing the percentage of coverage requirement to 40 percent for normal auditees and 20 percent for low-risk auditees.
- Revising the criteria for low-risk auditee status.
- Increasing the threshold for reporting findings to \$25,000 in questioned costs and requiring more detailed information to be reported.

Effective Dates:

Year beginning January 1, 2015 –

- All administrative requirements and cost principles will apply to new awards made after December 26, 2014.
- Governmental entities are required to comply with the Uniform Guidance once the new regulations are in effect at the Federal government level (December 26, 2014).
- Any funding drawdowns made after January 1, 2015 must comply with the Uniform Guidance.
- Must document whether the entity is in compliance with the old or new procurement standards listed in Subpart D, Sections 200.317–200.326. The federal government has provided a two-year grace period for implementing the new procurement standards.

Year beginning January 1, 2016 –

- All administrative requirements and cost principles will apply to new awards made after December 26, 2014.
- Subpart F – Audit Requirements are applicable.

Year beginning January 1, 2017 –

- Must have implemented the new procurement standards of the Uniform Guidance, if the government initially elected the two-year grace beginning January 1, 2015.
- At this point, all of the new Uniform Guidance at Title 2 CFR 200 is applicable.

Recommended Action Items:

We recommend that award recipients familiarize themselves with the new requirements contained in the Uniform Guidance and develop a plan to become compliant with the new regulations.

Consider the following –

- Attend training on the new uniform administrative requirements.
- Identify needed policy and procedure changes, especially in the areas of:
 - Financial management
 - Payment
 - Procurement
 - Compensation
 - Travel costs
- Identify internal controls that might need to be established or modified.
- Determine who within your organization is responsible for each action item.
- Determine the timing of each action item.
- Determine when you will implement the new procurement standards and document in writing.
