

Highway 13 & Duluth Ave Project

- Contractor has proposed a five-day road closure of Duluth Ave SE from Highway 13 to the Subway entrance, and a closure of the Anna Trail access to Duluth Ave SE.
- Closure in effect from Monday, May 20th at 7:00am to Friday, May 24th at 5:00pm.
- Duluth Ave will be reopened by 5:00 pm on May 24th with a partial gravel surface, which will be in place for about two weeks before pavement is placed.
- Closure will shorten the overall construction timeframe by 1-2 weeks, as the contractor will be able to lay storm sewer without the difficulty of working around open traffic.
- Contractor is working toward being substantially completed, with all roadways reopened for traffic, by an estimated date of June 21st. This would be ahead of schedule.
